#### Texas Emigration and Land Company! 320 Acres of Land for \$20---160 Acres of Land for \$10.

THE TEXAS EMIGRATION AND LAND COMPANY having derived their Grant from the late Republic of Texas, by contracts made with the President thereol, under authority of the special acts of Congress, approved 4th Pebruary, 1841, and 16th Jannary, 1843, granting lands to Emigrants, will continue to give 180 acres of land to families, and 160 acres of land to single men over 17 years of age, until the 1st day of July, 1848, conditioned, that the family shall pay \$.0, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—

that the family shall pay \$.0, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, most consist of—

"A man and his wife, with or without children;"

"A widower with two or more children; if males under 17 years of age, if females, unmarried."

"A widow with two or more children; if males under 17 years of age, if females, unmarried."

"Two single men over the age of seventeen years, each one being entitled to 180 acres."

On his arrival in the Colony, the Emigran's should fortiwith apply to the Agent of the Company, Mr. Henry O. Hedgeoxe, residing at Stewartsville, in Denton county, who wilt at all times be ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and give him a certificate in the Colony in due time.

Our Grant lies in the North-Eastern part of Texas, between the bind and 34th degrees of Latitude North, and 19th and 12nd degrees of Longitude West, from Washington; beginning on the south side of Red River, at a point 12 miles east of the False Ouachitts, running thence due South 100 miles, thence East 161 miles, thence North 190 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 200 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brasnes and Trinity Rivers, the Truity being anxigable for Steam Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 miles from Galveston, and Red River, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 70 pounds to the bushel. Indian corn, rye, barley, oats, sweet and Irish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hempand tobacco, and the celebrated muskete grass which covers the pr

The planning season commences in February and continues until July.

Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated 8th May, 1847.—

"I will not venture to tell my friends in Kentucky that the land here was better than the best land in Kentucky that the land here was better than the best land in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in many places five feet, and the kindest land to work lever put a plough in. I verily believe that around the forks of the Trimity, lies the largest body of first-rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Texas expire on the 1st day of July, 1848, and that he must not only be in the Colony, but that he must have selected his land, built a house or cabin thereon, and he residing therein with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons destring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

Prospectus of the Christian Mirror.

THIS paper will be devoted to the discovery, illustration, and defence of truth—to the advocacy of whatseever things are pure, lovely, and of good report. So far as it may be deemed expedient to give it a local character, it will akin more especially, to promote the interests of Apostolic Christianity in Kentucky. But a brief outline of its intended course, can be here sketched.

1. A candid and thorough examination of the questions involved in Church Organization and Co-operation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let no one depicate discussion. In the midst of society in rapid progress, it is unavoidable, and is to be invited, rather than repelled. It is not discussion that is dreaded, but those angry neusonalities, into which, even religious discussions too often descend. Nething of these last, shall ever have a place withe pages of the Mirror. In general, mothing that can be personally offensive to any one, will be admitted, unless the deleuce of the community against imposture, shall urgently demand it.

11. To furnish entertaining and justructive reading for the younger members of churches, being not the least important and of our paper, we shall attempt, for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Reformation.

Shall we in this case, when the husband has been gone from her for four years, leaving her in such a situation, to which she has been reduced by his villany, shall we, I say, in such a case, refuse to give relief and to act as justice demands; when we would not refuse our aid in a case where the husband had abandoned his wife for only a few months! This seems to be the effect of the resolution which we have adopted; but I hope no man will refuse his aid in this case which is truly meritorious.

Mr. COMBS said, that one reason why he was in favor of a Convention to revise the Constitution of of Mexico necessary for purposes of indemnity—terthis State, was, that we might be able to rid ourselves ritory unoccupied. #### UNITED STATES SENATE.

JANUARY 4, 1848.

Mr. Calhoun's resolutions being under consideration-Mr. C. remarked that he occupied precisely then took, he now held. He had opposed the war, not only because it was unnecessary, might easily have been avoided, and the allegations made in its favor were not founded in truth; but from high considerations of reason and policy. But after its declaration, he felt bound to acquiesce, and use all his ufluence to limit the evil growing out of it.

With this view he proposed the policy of a defensive line. Party considerations had nothing to do with him. When he might have occasion to dissent from the policy of the President, he should do it with becoming decorum. When he urged the defensive line policy, we had in our possession all the territory mode of terminating the war successfully. It must took a different view. Congress sustained him. The war has been waged vigorously-our arms everywhere triumphant-the Mexican armies annihilated -the city of Mexico itself in our possession. But what have we gained! Have we conquered peace! No, no. Every object is further off than ever.

The reason is clear. The plan of the campaign was erroneous—the object mistaken—indemnity sought in a wrong way. It was in our power to take it—we aimed at it by treaty, and failed. Our sole gain was military glory, achieved at an expense of forty millions of dollars, and thousands of lives.

He went into a calculation to show that a defenive line could easily be maintained, and at compara-

ively small cost. Another campaign was to be provided for—what now shall be done! The President recommends the igorous prosecution of the war, not for conquest, but for peace. He could not approve or support such policy. The cost of another campaign would be still greater-it would reach sixty millions of dollars. The army would be raised to seventy thousand men. Last year an unfortunate famine in the Old World furnished a rich market for our products, and the returns in specie were large. Now there is a panic in the money market. Specie is going abroad, and specie is sent to Mexico. The Treasury is draining at both ends. Men may be raised; money canno

be had so easily But suppose the war successful-and he had no fears for our arms-the more successfully it was prosecuted, the more certainly would the objects avowed by the Government, be defeated, and the objects disavowed, be forced upon us.

On this point, he dwelt with much force, showing

He spoke at large upon the policy of subjugating Mexico, and annexing her States as provinces or as States. Annexation could never be voluntary—and who could desire it! One or two millions more were of the white protested again and again against the incorporation

of such a people with us. The consequences of the policy of conquest were clearly and forcibly traced. He showed how the States would be merged in the Union, and the Leg-

slative in the Executive power. He then appealed to the Democratic Senators This war was causing a total reverse of Democratic policy in all our internal concerns. He showed how they were becoming the promoters of a Paper Currency, Public Debt, Executive Patronage, Pro-

LICKING RIVER .- We are gratified to perceive that a movement has been made in the Legislature to do something for the improvement of Licking River, and we hope that the matter will not end in mere words; but something in reality will be done. No appropriation could, in our opinion, be made by our Legislature, that would benefit a greater number of our citizens, than an appropriation for the improvement of the navigation of Licking river. The hull sunk immediately, leaving the cabin afloat, to which Saml. Hawker, Urtah Gastin, Wm. T. Knott, Jas. all the passengers who were saved, retreated for security. Before they were relieved, the cabin had floated a distance of eight miles, during which time the survivors suffered severely from wet and cold. The names of the lost are not given.

He left Kentucky in July 1846, as a member of the Clarke volunteers, forwarded to the Editors of the Louisville Journal under Capt. After that battle, and when his company was about to return to the U. States, he volunteered to remain at Jalapa and take care of his companions who were sick and wounded. After · discharging his duty at Jalapa, he went on to Perote, thence with the army under General Scott, to the city of Mexico, and participated as an amateur in the glorious victories won by our gallant soldiers at Contreras, Churubusco, Molino and the Gareta. He went through all the engagements unhurt; he acted, part of the time, as volunteer aid to Gen. Twiggs. He left the city of Mexico on the 8th of December, and confirms the report of the arrest of Gens. Worth and Pillow, and Col. Duncan.

The House of Representatives has called for the correspondence which led to the return of Santa Anna. Several attempts were made by Administration men, to reconsider the vote calling for it, but the efforts were unsuccessful.

The estimates of expenditure furnished by the Secretary of the Treasury, are undergoing the strictest scrutiny; and the unfairness of those estimates will be exposed in good time. It is believed that the measures recommended by the present Admin.stration, will require an appropriation of more than one hundred millions of dollars from the present Congress. The Secretary asks for fifty five millions for the ordinary expenses of the government. To this sum, add fourteen millions for the deficiencies of the past year, and the sum of thirty millions more for the support of the thirty new regiments called for, and you have the snug sum of NINETY NINE MIL-Lions of dollars. If to this aggregate we add a entage of deficiency equal to the ascertained deficiency of the past year, the sum will, by several millions, exceed the amount above estimated! One hundred millions per annum, spent in an effort to "conquer a peace" from Mexico!

> From the National Intelligencer, Jan. 4. A Great Truth Nobly Vindicated.

The Honse of Representatives yesterday signal-· ized itself by a homage to Truth, the more brilliant and striking, because unexpected at so early a day the views and plan of Washington, are earnestly requested to in the session, though not donbted in the end, by those who believe, as we do, that the ultimate triumph of Truth over error, is certain.

Yesterday being Resolution-day, Mr. Houston, the Whig member from Delaware, having previously given notice of his intention to do so, introduced esolution of thanks to Gen. Taylor and the Army under his command, for the great achievment of the Battle of Buena Vista.

This resolution, Mr. Henley, one of the Democratic Representatives from Indiana, moved to amend by adding to the words describing the army, these words: "engaged as they were, in defending the rights and honor of the Nation."

This amendment, Mr. Ashmun of Massachusetts, moved to further amend, by adding these words: "in a war unnecessarily and unconstitutionally begun by the President of the United States."

On agreeing to this last amendment, the yeas and nays were ordered; and the vote being taken, it stood as follows: Yeas 85; Nays 81.

So that the House of Representatives has, by a solemn vote, declared that the War with Mexico was unnecessarily and unconstitutionally begun by the

President of the United States. The yeas and nays on the adoption of Mr. Ashmun's amendment are as follows:

LINES TO THE MEMORY OF ALICE. She sparkled-was exhaled and went to Heaven."

Scourge of the dark and dreary world! Where is thy sting, where is thy sting? Why on life's sea art thou unfurl'd Ere to the winds our sails we fling?

Thine arm O death! it is-it is. And couldst thou not resign her breath? Hark! I hear? in heaven she is, Yet bless'd by thee, dark dismal death.

Oh! hear ye not that mellow strain? It comes, it comes from heaven above, All! death! Is this thine hallow'd bane, God whisp'ring nadying leve ? The heavenly peal resounds again,

But now as tells that choral strain, With angels in heaven recline.

Sweet Alice! on ethereal wing, Thy blest spirit hast flown above, Where e'remore the arch-angels sing Unearthly songs of heavenly love. And thou art gone ! so young and fair, And all but thine unbroken infant light, Clay-wrapp'd sleeps in earth forever there, Forever there! but near God's sight.

Scourge of the Earth ' thy spectral light, Has flashed away her life-spring's day; But in you vault there is no night, There virtue shines with purest ray. Rest! Alice rest! thy life is run, For thee, for thee be breathed the sigh,

But now behold thy bliss' sun, Fly spirit, fly to God on high.

ESCAPED from the Kentucky Penitentiary, on Sunday night, the 21st instant, a convict manned ELISHA SKETOE. Said convict is about 22 years of age, (quite small for his age,) is only about 5 feet 6 inches high; weighs about 130 pounds; delicate regular features; small black eyes; from his hair and general appearance, he looks like he might be part Indian or Spaniard; is very ignorant, having no education, and but little natural sense; looks down when spoken to; and with a very slight examination and questioning may be detected. Said convict took from my stable, and rode off, a dark bay horse, about four years of age; at least fifteen hands high; long-bodied, and slender bnilt, with a very long black main and tail; no spots upon him; has not been ridden much, and is quite skittish; is what judges would term a "very clever horse."

The saddle he rode is about half worn, doubled skirted, with knee puffs upon the skirts. The girth has been broken and tied together; black bridle, single nead-stall, double reigns; one of the reigns ripped in two; old fashioned curb bit, with long jaws and quite rusty.

I will give \$70 for the arrest and delivery of the convict and horse; or fifty for the convict alone; or \$20 for the horse; or aliberal reward proportionate to the above, for the horse; or aliberal reward proportionate to the above, for the arrest and detention of the convict and horse, so that I may get them.

MILITARY INSTITUTE. This Institution, created by an Act of the General Assembly, will be opened for the reception of Pupils,

On the 1st of March, 1847, under the immediate di-rection and entire control of a Board of Visitors,

Appointed by the Executive of the Cummonwealth.

Appointed by the Executive of the Cummonwealth.

It contemplates a Military Organization for Literary and Scientific purposes; an education eminently scientific and practical; the formation of regular habits, and the diffusion of a knowledge of Military Science.

Military duties will not be permitted to interfere with the pupil's progress in study, but will rather take the place of his unprofitable, and often, vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Colleges, except that hut one language is required, (Latin or French,) the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature.

tended course in Mathematics, Natural Science and English Literature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Frankfort, Kentucky, (recently occupied by the Franklin Institute,) is admirably adapted in every respect to Academical pur poses; the locality being airy and healthy, the mineral waters salubrious, the buildings elegant, extensive and commodious, and entirely apart from the contamination and multiplied malign influences, which seem inseparable from a city or village residence.

The Institution is placed under the charge of Col. R. T. P. ALLEN, as SPERRINTENDENT, who has been brought prominently before the public, as a competent and successful teacher and governor of youth, by his honograble graduation at the United States Military Academy: his subsequent connection with the Army, and with the Engineering Service of the General Government, as Superintendent of public works; by his long experience as an Instructor, by his recent connection with the Transylvania University.

The Academic Year will be divided into two Sessions of twenty one weeks each.

The first commencing on the 1st Monday in October, and the second on the 1st Monday in March. The only vacation occupying the months of August and September.

The month of July will be spent in an excursion tarough the State, for the better study of its Geology and of Natural Science generally.

State, for the better star, or the generally.

Applicants for admission, on paying the charge of the Institute, and presenting a certificate of good moral character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination thereafter, will be entitled to a warrant of appointment, as Cadet, from the Governor. The uniform of the Cadets is plain and neat, and being of Kentucky Jeans, will greatly reduce the expense of their clothing.

NY, No. 29, WALL STRENT, NEW YORK.

THIS Company, which confines its business exclusively to a late Insurance, has now been in operation two years and a half, during which period it has issued 15:23 policies, and for the lirst eighteen months it experienced no loss. Its losses for the whole time have been less than \$18,000—leaving an accumulation of about \$65,000 on hand, beyond the paryment of claims and expenses. This, added to the original guaranty capts so solid as no longer to admit of a rational doubt.

All its profits accrue to the credit of the dealers, and are divided annually among them, whether the policy be issued for a limited period or for the whole term of life, a feature unknown in the charter of any other Mutual Life Insurance Company in corporated by this State.
